

# The Qualivis Revenue Capture Program

## Simplify Locum Staffing and Save Money

Seventy-one percent of U.S. hospitals engage six or more locum tenens physicians or advanced practitioners each year. Are you one of them? If not, you may be deterred by the perceived expenses and tedious enrollment processes that are often associated with locum tenens providers.

The Qualivis Revenue Capture Program can help. Locums secured by member hospitals through a Qualivis MSP have access to free provider enrollment services during onboarding. We greatly reduce the enrollment burden and you capture 100% of billable revenue.

The benefits of hiring locum providers cannot be underestimated. They help relieve stressed, overburdened staff. They increase patients' access to care. And, with a physician's average generated revenue topping \$2.4 million annually, can you really afford not to use locums?

## The Qualivis Revenue Capture Program Promise

- Locums sourced under a Qualivis MSP have access to full payor enrollment support during onboarding
- Work collaboratively with our experienced privileging and enrollment specialists to complete payor applications – free of charge – to simplify and expedite the provider onboarding process
- A full 100% of locum-generated revenue stays with the Qualivis member
